**INTRODUCING RE-SEALABLE ULTRA QUIK GRIP™ ADHESIVE
 FROM LIQUID NAILS® BRAND**

Extra-Strength Household Adhesive Packaged in a Re-usable Container with Trowel Applicator

Re-Sealable Ultra Quik GRIP™ Adhesive from LIQUID NAILS® Brand packs the power of a cartridge adhesive into a seven-ounce tub. A first from LIQUID NAILS Brand, this multi-purpose adhesive provides an extra-strength bond without a caulk gun. The container is easily re-sealed for multiple uses and projects. The inner seal of the package helps to eliminate the drying out of adhesive between applications. A trowel applicator is included making this formula quick and simple. Specifically formulated for interior projects, this low-odor adhesive works well on many building materials, requires no bracing, and works great on vertical surfaces. It also provides easy water clean-up. For additional details, visit www.liquidnails.com.
