

## COWBOY ORNAMENT

### Materials:

Glass ornament  
Bandana  
2 star shaped buttons (eyes)  
Heart shaped button (nose)  
3 small round buttons (mouth)  
Doll-size cowboy hat  
LIQUID NAILS® Small Ceramic Projects Repair Adhesive\*

### Instructions:

1. To adhere the “eyes,” place two drops of Small Ceramic Projects Repair Adhesive for each star button; press in place
2. To adhere the “nose,” place one drop of adhesive and press the heart button in place
3. Below the nose, adhere the small round buttons with one drop of adhesive each for the “smile”
4. Place the hat into desired position, mark where the hat touches the ornament with small pencil marks; apply evenly spaced drops at the markings and press the hat in place
5. To create the ornament’s neckerchief, cut a 1”x 22” piece from the bandana; tie the bandana around the ornament’s base; mark desired placement with small pencil marks; apply evenly spaced drops of Small Ceramic Projects Repair Adhesive at the markings and press in place

**\*NOTE:** LIQUID NAILS® Small Ceramic Projects Repair Adhesive is an instant-bond super glue for use on surfaces smaller than 1 inch. Adhere in small amounts for best results; use a “less is more” approach.

## ANGEL ORNAMENT

### Materials:

- Glass ornament
- Gold angel wings (found in doll section of craft store)
- Metallic gold chenille stick
- Festive embellishment
- LIQUID NAILS® Small Ceramic Projects Repair Adhesive\*

### Instructions:

1. Create the halo by bending the top 1/3 of the chenille stick at a 90 degree angle and into a loop
2. With the ornament upright, ensure the halo loop is two inches above the top of the ornament; apply three drops of Small Ceramic Projects Repair Adhesive in a vertical line on the “back” of the ornament; adhere the straight portion of the chenille stick in place
3. Apply drops of Small Ceramic Projects Repair Adhesive on the ornament on either side of the glued portion of the halo; press the wings in place
4. Apply the festive embellishment to the front of the ornament (see photo for placement); if the embellishment is large, ornate, heavy and/or an odd size, use a more appropriate adhesive such as LIQUID NAILS® Home Projects Repair Adhesive and brace with tape

**\*NOTE:** LIQUID NAILS® Small Ceramic Projects Repair Adhesive is an instant-bond super glue for use on surfaces smaller than 1 inch. Adhere in small amounts for best results; use a “less is more” approach.
